NOTES

Optional full site servicing: Stanford will revise or update all navigation, text, images, search tags and email (email list) accounts. We work with clients to keep their sites accurate and up-to-date with respect to current software and search standards.

For CMS web sites - the annual fee will be re-calculated (or eliminated) based on the degree of shared site management.

All Stanford packages include browser based e-mail access from any computer, anywhere, anytime.

You can upgrade to any package at any time, the additional fee for a higher level package will be pro-rated and billed accordingly.

All hosting services are billed annually.

You can cancel with 30 days notice and your remaining annual fee will be immediately refunded.
